## WELCOME TO NANIBOUJOU

Naniboujou was first conceived in the minds of a handful of men as an ultra-exclusive, private club. It was constructed on a 3,300 acre tract of land including one mile of Lake Superior shoreline. Three hundred thousand dollars of a planned five hundred thousand dollar investment was made, and in the year 1929 the Lodge was dedicated. Babe Ruth, Jack Dempsey and Ring Lardner were among its charter members.

The fireplace, which is the largest native stone fireplace in the state of Minnesota, is made of two hundred tons of native rock and stands in the 30' x 80' dining room of the main lodge, which is brilliantly decorated in designs of the Cree Indian, and has never been repainted since its completion in 1929.

A golf course and eight tennis courts were scheduled to be built, and construction of a hunting lodge thirteen miles to the north on the border of Lake McFarland was proposed.

A membership of a thousand was originally sought, but when the Black Tuesday stock market crash struck, precipitating the 1929 depression, the club began to fail. In the mid thirty's the club was sold.

Today, we welcome you to relax and enjoy a revitalized and progressive Naniboujou. As Christians, our intention is to operate the lodge and restaurant based upon our relationship with Jesus, trusting that it will result in an integrity in all aspects of the operation, as well as a comfortable and caring atmosphere for our guests and staff alike.

Your Hosts,

*Tom & Nancy Ramey*
